Commissioner for Patents

Receipt is acknowledged of a request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e) filed on 12 April 2005 to consider the amendment previously filed on 16 March 2005. However the amendment is considered not fully responsive for the following reasons:

All pending claims (289-346) have been amended to recite a combination of providing multiple primary beams from multiple sources, which are resolved, altered, resolved again and merged into a stereoscopic light beams. However, there is no support for this combination of features in the originally filed group XII claims (see Feb. 2003 restriction) that has been constructively elected due to the cancellation of the claims directed to the other inventions.

Accordingly, all pending claims are directed to non-elected subject matter. An amendment canceling all claims drawn to the elected invention and presenting only claims drawn to the nonelected invention should not be entered. Such an amendment is nonresponsive. See MPEP §821.03.

Since the amendment appears to be a bona fide attempt to provide a complete reply to the prior Office action, applicant is given a shortened statutory period of ONE MONTH or THIRTY DAYS from the mailing date of this letter, whichever is longer, to submit a complete reply. This shortened statutory period for reply supersedes the time period set in the prior Office action. This time period may be extended pursuant to 37 CFR 1.136(a).
